

The Kelso Homes Estate Property System

We take care of the house so you can take care of your family.

We give time for the family to pick out their treasured items.

We decide if an estate sale or auction makes sense. If not, we sort and donate items to the family's preferred donation center.

We empty the home of all remaining items, recycling whenever possible.

Prep the home, taking care of critical repairs and sensible cosmetic updates.

We coordinate with the Executor of the estate, involved family members, and all Attorneys.

Clean the home from Top to Bottom.

Stage, Professionally Photograph, list, and market the home.

Last but not least-
We handle all aspects of the selling process so you can get back to your life.

Losing a loved one is hard.
Selling their home shouldn't be.
